

EITT 2016

International Conference on
Educational Innovation through Technology

SEP. 22 - 24, 2016

Tainan, Taiwan

<http://eitt2016.nutn.edu.tw>

Society of International Chinese in Educational Technology (SICET) will organize its fifth International Conference of Educational Innovation through Technology (EITT2016) to provide a forum for researchers and teachers who study technology and education to publish research findings and exchange experiences in related topics.

The conference will be held on September 22-24, 2016 in Tainan, Taiwan. You are invited to present at EITT2016 to share your findings with your peers, the professional practitioners and researches from various disciplines around the world. The first EITT conference was successfully held in Beijing, China during August 10-12, 2012. The second EITT took place in Williamsburg, Virginia, USA during November 4-6, 2013. The third was held in Brisbane, Australia during Oct. 27-30, 2014, and the fourth was held in Wuhan, China during Oct. 16-18, 2015.

Founded in 2003, the SICET is a non-political, and non-profit academic organization. The mission of SICET is to establish and strengthen international academic connections, exchanges, research, and studies in educational technology for teaching and learning, and to promote the application of educational technology in education.

The conference proceedings will be published by IEEE, with best papers recommended for publication in special issues of international journals. (All articles in the EITT2014 and EITT2015 proceedings have been successfully indexed in EI (Compendex). Likewise, the organizer of this year conference will also cooperate with Conference Publishing Services (CPS) to publish the EITT2016 proceedings. All files of the conference proceedings will be submitted to Xplore and, upon acceptance, submitted for indexing in EI (Compendex).)

Topics of interests include but not limit to the following:

- Educational information strategies, policies, and assessment.
- Theories and practices of educational technology integration into curriculum.
- Theories and practices of open and distance education.
- Intelligence, mobile, and ubiquitous learning.
- Theories and practices for teacher education and development.
- Innovation of Chinese and language teaching in digital learning environment.
- Development and application practice of education platform.
- Technology, structure, standards, and system in education informalization.

Three types of submission are invited for EITT 2016:

1. **Refereed paper:** (with peer-review and 3-6 pages in length)
