

EITT2016 Accept Papers

first name	last name	organization	NO.	title
Kun	Dai	The University of Queensland	2	An investigation of Chinese postgraduate students' experiences on a data-visualized English writing feedback platform
Guo	Shouchao	Chuzhou university	4	Survey of Satisfaction of Small Private Online Course (SPOC)
Yu	Chunyan	chuzhou university		
Owen H.T.	Lu	Department of Computer Science and Information Engineering, National Central University	5	Early-stage Engagement: Applying Big Data Analytic on Collaborative Learning Environment for Measuring Learners' Engagement Rate
Anna Y.Q.	Huang	Department of Computer Science and Information Engineering, National Central University		
Jeff C.H.	Huang	Department of Computer Science and Information Engineering, Hwa Hsia University of Technology		
Chester J.H.	Huang	Department of Computer Science and Information Engineering, National Central University		
Stephen J.H.	Yang	Department of Computer Science and Information Engineering, National Central University		
Gwo-Jen	Hwang	National Taiwan University of Science and	7	An Online Peer Assessment-based Programming Approach to Improving Students' Programming Knowledge and Skills
Zi-Yun	Liang	National Taiwan University of Science and Technology		
Hsiu-Ying	Wang	National University of Tainan Tainan		
Rustam	Shadiev	Department of Engineering Science, National Cheng	8	Facilitating high level cognitive processes with a mobile authentic support
Wu-Yuin	Hwang	Network Learning Technology, National Central University		
Yueh-Min	Huang	Dept. of Engr. SCi. Nat'l Cheng-Kung Univ.		
Xianwei	Gao	University of Malaya	10	Critical Peer Feedback to Improve Business English Writing on Qzone Weblog: A Case of Chinese Undergraduates
Moses	Samuel	University of Malaya		
Adelina	Asmawi	University of Malaya		
Gwo-Dong	Chen	National Central University	11	Development and Evaluation of Novel eBook Interface for Scaffolding Thinking Context in the Teaching of Writing
Chin-Yeh	Wang	National Central University		
Chih-Kai	Chang	National University of Tainan		
Jason	Macleod	Central China Normal University	12	Life-cycle Efficacy for Educational Technology: Best-practices for Leading Schools
Harrison Hao	Yang	State University of New York at Oswego		
Meiqian	Wang	Central China Normal University	14	Students' Perspective of University in the Information Age: A Case Study from Central China Normal University
Jason	MacLeod	Central China Normal University		
Xiaohuan	Sun	Central China Normal University		
Harrison	Yang	State University of New York at Oswego		

Zhi	Liu	National Engineering Research Center for E-Learning, Central China Normal University	15	Emotion and associated topic detection for course comments in a MOOC platform*
Wenjing	Zhang	National Engineering Research Center for E-Learning, Central China Normal University		
Jianwen	Sun	National Engineering Research Center for E-Learning, Central China Normal University		
Sanya	Liu	National Engineering Research Center for E-Learning, Central China Normal University		
Xian	Peng	National Engineering Research Center for E-Learning, Central China Normal University		
Hercy N. H.	Cheng	National Engineering Research Center for E-Learning, Central China Normal University		
Weiyuan	Zhang	Distance Education Research Centre of Beijing	18	Development and Application of E-learning and M-learning in Continuing Higher Education: Experiences from HKU SPACE
Chenggui	Duan	Chu Hai College of Higher Education		
Nan-Nan	Gao	Nanjing Normal university	19	An Empirical Study of Elementary School Chinese Writing Teaching Used Automatic Evaluation Software of Chinese Characters (I) —A Case Study of Primary School Grade Three Students in Nanjing City
Hong-Bin	Qiu	Nanjing Normal university		
Jie	Jiang	Nanjing Normal university		
Yi	Li	Nanjing Normal university		
Jian-Qing	Zong	Nanjiang Normal University		
Hong-Bin	Qiu	Nanjiang Normal University	20	An Empirical Study of Elementary School Chinese Writing Teaching Used Automatic Evaluation Software of Chinese Characters (II) —A Case Study of Primary School Grade Three Students in Nanjing City
Jie	Jiang	Nanjing Normal University		
Yi	Li	Nanjing Normal University		
Susana	Eisenclas	1930	21	Brush It Up! On-line resources for fostering independent learning
Andrea	Schalley	1930		
Yu	Liu	Beijing Normal University	22	Theoretical Model and Effects Analysis of Collective Synergistic Learning
Ling	Chen	Beijing Normal University		
Maodi	Hu	Aisino		
Zhaoli	Zhang	Central China Normal University	23	A computer-assisted learning system in the teaching of infrared spectroscopy course
Taihe	Cao	Central China Normal University		
Hai	Liu	Central China Normal University		
Jiangbo	Shu	Central China Normal University		
Zhenhua	Li	Central China Normal University		
Zhijun	Wang	Jiangnan University	25	How learners participate in connectivist learning: An analysis of interaction transcript in Change 11 MOOC
Hsiu-Ju	Chen	ISU	27	Exploring the impact of attitude and perceived behavioral control on elementary school teachers' use intention of in-service e-teacher development

Chengling	Zhao	Central China Normal University	28	Analysis of Social Network and Knowledge Construction Levels in Online Discussion Activity
Yunzhen	Liang	Central China Normal University		
Xiaoyuan	Zhao	the University of Iowa		
Fan	Fulan	Central China Normal University	30	Exploring the Relationship between Teachers' ICT Competency and Usage of ICT in Elementary and Secondary Teaching practice
Zhang	Yi	Central China Normal University		
Chen	Beilei	Central China Normal University		
Bai	Qingyu	Central China Normal University		
Zhou	Pinghong	Central China Normal University		
Lin	Li	Central China Normal University		
Yushuang	Dong	Institute of education, Tsinghua University		
Yingqun	Liu	Institute of education, Tsinghua University	34	Design of Multi-Terminal Mobile Learning Platform
Xibin	Han	Institute of education, Tsinghua University		
Fugang	He	People's Public Security University of China		
Li	Chen	Beijing Normal University	35	Curriculum Development For Practical Training — A Design-Based Research of Network Detection Combat
Qinhua	Zheng	Beijing Normal University		
Xinyan	Zhang	National Engineering Research Center for E-Learning, Central China Normal University		
Chun	Lu	National Engineering Research Center for E-Learning, Central China Normal University	38	A model based on the factor analysis for assessing the ICT development in basic education and regional comparison
Di	Wu	Hubei Research Center of ICT Development in Education		
Peng	Zhou	Central China Normal University		
Jin	Zhang	Central China Normal University	40	Exploring Elementary Learning Style Supported by Cyber Learning Space in Central China
Zhexu	Liu	Central China Normal University		
Lin	Feng	Central China Normal University		
Min	Hu	College of Information Engineering, Hubei University of Chinese Medicine		
Hao	Li	National Engineering Research Center for E-learning, Central China Normal University	43	Student Engagement: One of the Necessary Conditions for Online Learning
Wenping	Deng	College of Information Engineering, Hubei University of Chinese Medicine		
Hua	Guan	College of Information Engineering, Hubei University of Chinese Medicine		

Danni	Hu	School of Educational Technology, Beijing Normal	44	Design and Development of a Safety Educational Adventure Game
Geran	Zhang	Faculty of Education, Beijing Normal University, China		
Ying	Liu	Institute of Early Childhood Education, Beijing Normal University, China		
Fengkuang	Chiang	School of Educational Technology, Beijing Normal University, China		
Qingyu	Bai	School of Educational Information Technology, Central China Normal University	46	A peer assessment-based mobile learning approach of science course: A case study
Yi	Zhang	School of Educational Information Technology, Central China Normal University		
Beilei	Chen	School of Educational Information Technology, Central China Normal University		
Fulan	Fan	School of Educational Information Technology, Central China Normal University, Hubei Wuhan 430079, China		
Pinghong	Zhou	School of Educational Information Technology, Central China Normal University, Hubei Wuhan 430079, China		
Li	Lin	School of Educational Information Technology, Central China Normal University, Hubei Wuhan 430079, China		
Qiuju	Li	Beijing Normal University		
Xiaojing	Hu	Chuzhou University	50	Studying behavior analysis and learning effect evaluation for learners based on MOOCs
Shixi	Liu	Chuzhou University		
Zhihong	Xu	Chuzhou University		
Zhongjian	Chen	Beijing Normal University	53	Investigation of MOOCs platform in China
Qinhua	Zheng	Beijing Normal University		
Li	Chen	Beijing Normal University		
Zongping	Xiang	Central China Normal University	54	Advanced Chinese EFL Learners' Experiences and Perceptions of OGSW – An Online Collaborative Creative Writing Project

Hui	Chen	Beijing Normal University	55	The design study of inquiry-based learning space for cultivating k-12 student's scientific literacy
Lulu	Sun	Beijing Normal University		
Huihui	Zhang	Beijing Normal University		
Fengkuang	Chiang	Beijing Normal University		
Yuh-Tyng	Chen	Tainan University of Technology	57	Effects of the Flipped Classroom Model on Student Performance for vocational college students
Shyhnan	Liou	National Cheng Kung University		
Shuang	Li	Beijing Normal University	58	Exploring the effect of behavioral engagement on learning achievement in online learning environment——Learning Analytics of non-degree online learning data
Chen	Yu	Beijing Normal University		
Jingjing	Hu	The University of Hong Kong		
Yao	Zhong	Beijing Normal University		
Yanhong	Li	Yunnan normal univeristy	59	Design and Development of Adaptive Minority Ethnic Culture MOOCs Platform
Bo	Zhao	Yunnan Normal University		
Sha	Zhu	Central China Norma University	66	Personality and Vocational Interests: What We Have Learned about Students in Educational Technology Major
Harrison	Yang	State University of New York at Oswego; Central China Normal University		
Jin	Cai	Central China Norma University		
Chunyan	Yu	Chuzhou Universtiy	67	Instructional Design and Implementation Software Capability Training Supporting by Software Case Library
Jun	Ma	Chuzhou Universtiy		
Qian	Ren	Chuzhou Universtiy		
Yuyan	Zhao	Chuzhou Universtiy		
Honglei	Huang	Southwest University	70	The Reasearch on Learning Satisfaction Factors in 3D Virtual Learning Environment
Geping	Liu	Southwest University		
Pinghong	Zhou	Central China Normal University	71	The influence of assessment-based learning on students' knowledge building in the smart classroom
Weihu	Wang	Central China Normal University	72	An Educational Platform for Promoting Awareness of Lake Environmental Protection with Live Monitoring Technology
Yanshen	Liu	Central China Normal University		
Yahui	Guo	Central China Normal University		
Zhizhong	Zeng	Central China Normal University		
Pengpeng	Jian	National Engineering Research Center for E-Learning Central China Normal University	73	Extraction of Implicit Quantitative Relations for Arithmetic Word Problems in Chinese
Mingshu	Wang	National Engineering Research Center for E-Learning Central China Normal University		
Huihui	Sun	National Engineering Research Center for E-Learning Central China Normal University		

Yu-Chun	Ma	Department of Information and Learning Technology National University of Tainan	74	A Study of the Affective Tutoring System for Music Appreciation Curriculum at the Junior High School Level
Hao-Chiang	Lin	Department of Information and Learning Technology National University of Tainan		
Zhijie	Liang	Central China Normal University	77	Character-level convolutional networks for arithmetic operator character recognition
Qing	Li	Central China Normal University		
Shengbin	Liao	Central China Normal University		
Wu-Yuin	Hwang	Graduate School of Network Learning Technology, National Central University	78	An annotation tool to support procedural knowledge learning
Chin-Yu	Wang	Department of Tourism, Providence University		
Su-Ching	Pan	Department of Computer Science & Information Engineering, National Central University		
Jian-Jie	Dong	Department of Computer Science & Information Engineering, National Central University		
Zhenhua	Li	National Engineering Research Center for E- Learning, Central China Normal University	82	Construction of reusable integrable multi-layer and multi-granularity educational resource library
Zhaoli	Zhang	National Engineering Research Center for E- Learning, Central China Normal University		
Tingting	Liu	National Engineering Research Center for E- Learning, Central China Normal University		
Jiangbo	Shu	National Engineering Research Center for E- Learning, Central China Normal University		
Taihe	Cao	National Engineering Research Center for E- Learning, Central China Normal University		
Fangyi	Wan	Beijing Normal University	83	The development of Online Education in Chinese Higher Education
Qinhua	Zheng	Beijing Normal University		
Shu-Yuan	Tao	Takming University of Science and Technology	84	Flipped Classroom with Game-based Learning in Elementary Students Learning English
Mei-Jia	Tsai	Takming University of Science and Technology		
Jianlei	Peng	Southwest University	85	The design and implementation of task-based learning activities in 3D virtual environment
Ruobin	Liu	Southwest University		
Geping	Liu	Southwest University		
Hengguo	Zhang	Beijing Normal University	87	A Survey of the learning evaluation of MOOCs in China
Qinhua	Zheng	Beijing Normal University		
Li	Chen	Beijing Normal University		
Xiaoying	Feng	Beijing Normal University	88	Using the mixed mode of flipped classroom and problem-based Learning to promote college students' learning : An experimental study
Pengyu	Chen	Guangdong Open University		
Yue	Liu	Beijing Normal University		
Qiong	Song	Beijing Normal University		

Qinhua	Zheng	Beijing Normal University	89	Comments on the Development of MOOCs and the Design of Core Supporting Policy in China
Xuan	Zhang	Beijing Normal University		
Li Shuqin	Chen Zhu	Beijing Normal University College of Information Science and Technology, Beijing Normal University; Teachers' College of	90	The Application of Information Processing Technology in Serving Chinese News Teachers
Dongdong	Guo	College of Information Science and Technology, Beijing Normal University		
Jihua	Song	College of Information Science and Technology, Beijing Normal University		
Wen Chun	Hsu	Department of Information and Learning Technology, National University of Tainan	91	Impact of Applying WebGL Technology to Develop an Web Digital Game-based Learning System for Computer Programming Course in Flipped Classroom
Hao Chiang	Lin	Department of Information and Learning Technology, National University of Tainan		
Lu	Zhang	Graduate School of Education, Peking University	92	Understanding the Educational Values of Video Games from the Perspective of Situated Learning Theory and Game Theory
Junjie	Shang	Graduate School of Education, Peking University		
Jian-Yang	Shih	Department of Information and Learning Technology, National University of Tainan	95	A web-based cooperative annotation system to conducting learning activities for mammography
Iwen	Huang	Department of Information and Learning Technology, National University of Tainan		
Si-Wa	Chan	Department of Radiation Oncology, Taichung Tzu Chi Hospital		
Lili	Li	CENTRAL CHINA NORMAL UNIVERSITY	96	Comprehensive Evaluation Based on VEDI index measure of vocational education informatization level
Feifei	Zhi	School Of Education Shaanxi Normal University	97	The Localization Strategy Research of Flipped Classroom ——Based on comparative analysis of Chinese and American Teaching Practice Case
Xuefei	Zhao	School Of Education Shaanxi Normal University China		
Jia	Tian	School Of Education Shaanxi Normal University China		
Chih-Hsiao	Tsai	Takming University of Science and Technology	98	Effect of an Equivalent Fractions Digital Game on the Learning Outcome, Motivation, and Flow Types Among Elementary School
Jung-Chuan	Yen	National Taipei University of Education		
Anthony Y. H.	Liao	Dept. of M-Commerce and Multimedia Applications,	101	App-based Long-Term Care E-Learning Platform
Shun-Pin	Huang	Dept. of Computer Science and Information Engineering, Asia University
